NO. 10.

### Decoration Day Committees.

Arrangements for the observance of Memorial Day in Astec are about complated. The committees appointed to prepaga for the day are as follows:

Docarating Committee - Mastames Fred Bunker, Jas. C. Dodser, John T. Green, H. L. Dunning, A. H. Du-ning, G. W. McCoy, Juc. Swires, Ed Wiss, D. F. Baniels, E. G. Condit, C.V. Safferd, O. Hathjan, J. Gordwin, M.L. Page A. A. Waggoner, Misses Esdie, Zee Rash Bortha Brewer, Mand Waring, Messre, J. D. Finley, Sherman Howe, L. C. Grove, Rav. Kadie, W. A.

Misses Phoebe Hippeumsyor, Miste Elmer, Mamie Markley, Nottle Quinn, Grane McCoy, Ethel Palmer, Nausie Farmer, Ester Brown, Of all Bassie Austie, Mrs. Myrila Edwards, Missas Binnie Knickerhocker, Aunie Williams, Maggie Gilmour, Clara Cameron, Miss Gurnsy, Mesers, Clarter B Declay and Artis Williams. Arbor Committee-Judge Pentleton, Fred Bunker, Frank Baker, Dr. Condit, Monroe Fields, C S. Boyd, C. V. Safferd, B. P. Phelps, C. G. Brawer, L. C. Grove, Frank Sharp M. B. Whitford, Frank Revull, W. S. Dalton, C. E. Mead, Arthur Scott, John Farmer, Jr. E. G. Berry, Josev Bell, John H. Austin, Barner: Kniekurinckker, James C. Dodson, Arthur Berst, Coffee Committee-Peter Kniekerbeker, J.H.

Austin. Joe Howe. Everyone is invited to bring their backets for a basket dinner. Coffee will be furnished free.

county this week, and his presence led to the discussion of the project of a bit eyele path from Durango dawn the valley. Bert is an enthusiastic wheelmen and sees only smooth sating for such a sensue. He will subscribe \$50 to the purpose and thinks considerable money could be raised in Durango. The path would be built only across sandy placed and sensue. The time for the territorial horticulton the discussion of the project of a bit tural fair at Santa Fe has not yet been differed as usual try to act in harmony with those of the fair at Albubuerque, and the latter have not such a sensue. He will subscribe \$50 to the purpose and thinks considerable money could be raised in Durango. The path would be built only across sandy placed and in cultivation. The soil is determined their date. Most exhibit at the fair. Mr. delevel and the fair. Most exhibit at the fair. Mr. delevel and the fair. Mr. delevel and the fair and the continuous of the most energetic form C. M. Meligary, of San Jura county, in which he says their apple of the best quality in the second and in cultivation. The soil is determined the fair. Mr. delevel and the fair. Mr. delevel and the fair. Mr. delevel and the fair and fair at Santa Fe has not yet been differed and in cultivation. The soil is determined their date. Most exhibit at the fair. Mr. delevel and the fair. Mr. delevel and the fair and fair at Santa Fe has not yet been differed and in cultivation. The soil is determined the fair. Mr. delevel and the fair. Mr. delevel and the fair and fair at Santa Fe has not yet been differed and in cultivation. The soil is determined the fair. Mr. delevel and the fair. Mr. delevel and the fair and fair at Santa Fe has not yet been differed and in cultivation. The soil is determined their date. Most exhibit at the fair. Mr. delevel and the fair and fair at Santa Fe has not yet been differed and in cultivation. The soil is determined the fair. Mr. delevel and the fair and fair at Santa Fe has not yet been differed and in cultivation of the best quality in places and slong the heavy grades, the main road being used ordinarily. It is thought the big bill above the bridge could be avoided by following ditch banks around the base. There are many points in favor of the path idea and its practicability can scarcely be ques-loned. Whoop her up!

From the Burango Democrat.

O. B. Galbreath yesterday made out seene: the does conveying the Henry J. Rules ranch near Axtec to Grosse Daipra and Frank Stedile of Central City. Cousid-

Homeweekers are still heading for the fruit belt and we notice that there are sone who visit Artee and Farmington return dissatisfied, or return at all unless to go cast and settle up affaire before lo cating permanently.

From the Durango Herald. Miss Ida M. Currie, residing near Farmington, departed via Salida this

morning for Ban Francisco. Bert Gartin left this morning for Astec and other points in the lower Animus country. He will be gone three or four days and will no doubt have sev eral more wheels to order upon his re

W. M. Williams has a full stock of eeu

"I have traveled over a great deal of the West, and I am bound to say that I know there are no periods fangeus diseases of orchard fruits is New Mexics, but the terriory in which Farmington is the terriory in which Farmington is structed." Mr. Zalinger continued.

"But people all over the Uniten States of land and we hope to see must seetton. The big pasking compales of Chicago and other cities are there, long the fruit begins to turn, buying up whole orwhards just as they stand.

"But people all over the Uniten States of land and we hope to see must seetton. The big pasking compales of Chicago and other cities are there, long the fruit begins to turn, buying up whole orwhards just as they stand.

"But people all over the Uniten States of land and we hope to see must seetton. The big pasking compales of Chicago and other cities are there, long the fruit begins to turn, buying up whole orwhards just as they stand.

"But people all over the Uniten States of land and we hope to see must seetton. The big pasking up to the wonders of this section. The big pasking compales of Chicago and other cities are there, long the fruit begins to turn, buying up whole orwhards just as they stand.

lime and poises solutions in the barrel, add quality, smoogh water to fill it. The solution is best "The applied to the trees by means of a spraying pump attached to the barrai. This is carried on a wagen, the work being better done from above if possible. The normal should be gradmeted to throw a spray as fine as mist, and every part of the tree should be reached; but no more and be applied than will caves dripping from the tree. Practice and care are necessary to apply the poison evenly and thoroughly and every fruit should be reached.

The time to spray is after the blussome fall and before the fruit stome ourse downward. It is heat to make two or three sprayings first just as the last petals full; then again a fatervals of about tes days. The Codling Mon is most apt to lay its eggs in the latesons no of the fruit, hence it is especially important that the blossom end by well sovered with the polson; this is why the spraying should be deny while the tiny fruits stand erest on the r atems. As seen as the egg butches the worm begins feeding, eating its war late the fruit. To be at all effective the poises must be on the fruit American literature, and is certainly subulying when the worm is intohed. In southern parts the cond for a western magazine. Each month of the territory the Codling moth has tirred the magnatus presents an interesting table of or four broads a year, and is much more dif- contents, consisting of short stories, sketches of Souly so combat that in northern New Muxico travel, and articles of general intercet, all and at high alvations, but spring spraying profusely like transi; but in addition to this should greatly reduce the number of werens, even where there is more than one broad - year. A Sulbition has been insued by the Agricultural Experiment Station on the Codling Moth, which will be sent free, postage prepared to axe address on application to President of the Agricultural College. Meells Park. New Maries.—Fred C. A. Keffer, in Press Bullatin No. 18, New Mexico College of Agriculture.

Says the Buffalo (Mo.) Reflex: "Dra. I. Phillips and W. C. Chryton arrived last Saturday from New Muxico where they have been looking for a location. They purchased town lots in Astec before leaving and will probably move
